

WORKING STUDENT (Unity3D)

PART TIME (20 H) IN HAMBURG / REMOTE | 15.06.2019

YOUR PROFILE

- Familiar with Unity3D and C#
- Agile development (collective code ownership, etc)
- Version Control System such as Git or Mercurial

WHAT WE EXPECT

- Development and documentation of a new mobile app

WHAT WE OFFER

- A highly motivated and interdisciplinary team
- Highly complex and exciting problems to solve
- Free choice of OS (Windows 10 or Mac OS)
- Office space in one of the coolest parts of Hamburg (Ottensen, Zeisehallen)

At Sympatient we help people with anxiety disorders to improve their mental health with mobile VR technology. This will enable millions of patients to access digital confrontation therapy on their smartphones. Do you want to **join us in our mission and help develop our apps?** Then join us and apply now!
